

Cut license waste. Keep what your organization actually needs.

A focused review of your Microsoft 365 and Azure licensing that turns hidden overspend into a clear, right-sized purchasing plan.

Clarity, not complexity.

A fixed-scope review designed to produce a decision-ready recommendation.

Small and midsize businesses

School districts

Municipalities

We look where license waste hides

- ✓ **Unused seats** that no longer support active work
- ✓ **Departed-employee assignments** still consuming licenses
- ✓ **Overlapping SKUs** with duplicate or unnecessary capabilities
- ✓ **Annual-vs-monthly mismatches** that may be driving avoidable cost

You leave with a buying decision

- 1 One-page savings report**
A concise view of identified waste, optimization opportunities, and recommended priorities.
- 2 Right-sized license quote**
A practical Microsoft 365 and Azure licensing proposal aligned to your current needs.

You provide current license and billing exports. The review does not require configuration changes to your tenant.

From current state to right-sized plan in three steps

- 01 Brief intake**
Confirm your environment, priorities, and available licensing data.

- 02 Focused analysis**
Review assignments, product overlap, billing cadence, and utilization signals.

- 03 Findings review**
Walk through the savings report, recommendations, and right-sized quote.

TYPICAL TIMELINE

5 business days

Turnaround begins after complete licensing and billing data is received.

PRICING

Complimentary for qualified organizations

Eligibility is confirmed through a brief intake for organizations with active Microsoft 365 and/or Azure spend.
